

BROKEN OAK RANCH

Sharing The Legacy of Maternal Value

Saturday, April 18, 2009 • 1:00 PM (CT)

At The Ranch • Seguin, Texas

An unprecedented event where we are *Sharing The Legacy* of many of our most important and proven cow families. Our ET program has been highly successful and it is time to share the wealth of genetic value that these cow families have bestowed on the Broken Oak Ranch. The drought has been difficult and we are digging deep to offer you the very best we have to offer.

Each female is backed by the largest DNA verified Braunvieh program in the USA. Each female has been hand-picked for her pedigree, production and maternal value and ranch proven for your piece of mind.

FEATURING! 70 LOTS • Purebred • Fullblood • Percentages
Cow/Calf Pairs ~ Bred Heifers ~ Open Heifers

Join us Friday evening, 5 p.m. for food & refreshments and informative industry leaders speaking on Linear Measurements - BVD-PI - Reproduction
